- Scenario-based learning
- Distance education
- Multimedia eLearning development
- Mobile learning
- Storyboarding
- Graphic Design

EDUCATION

BACHELOR OF SCIENCE, PSYCHOLOGY

Virginia Commonwealth University

MICROCOMPUTER APPLICATIONS CERTIFICATE

J. Sargeant Reynolds Community College

PROFILE

I am an accomplished professional with a solid foundation of experience in applying technology to augment the learning experience and improve outcomes. My full-time positions have been in higher education; however, I have worked as a freelancer in other industries for many years. At this time, I am seeking to contribute my skills to part-time remote opportunities.

EXPERIENCE

SENIOR INSTRUCTIONAL TECHNOLOGIST/ELEARNING DEVELOPER

Virginia Commonwealth University School of Nursing | 2007 to present

- Collaborate with faculty to design, develop, and deliver high-quality instruction that enhances learning and research environments through a variety of media
- Provide technical and curricular support for Canvas, the University's Learning Management System
- Script, storyboard, and develop scenario-based eLearning modules that allow students to use guided discovery to practice skills and learn in a safe environment
- Provide leadership and direction related to distance learning and web-based instruction
- Design presentations and contribute to faculty publications

ACADEMIC TECHNOLOGIST

University of Richmond | 2000 to 2007

- Leveraged technology to improve academic programs and meet the needs of faculty, staff, and students
- Produced multimedia case studies and simulations to enhance student mastery of advanced concepts
- Contributed significantly to large-scale projects and special initiatives, providing technology expertise and advice on e-Learning and web-based instruction throughout all phases
